PROFILE

Visual and graphic designer with two years of applied experience through BIZ BEE, BRAC University's business club, building complete campaign systems rather than one-off graphics: registration, countdowns, speaker/judge announcements, and results content designed to stay visually consistent across a full event lifecycle. Work spans BIZ VERSE, BEEHONT, BRAINIACS, and the HSBC Business Case Competition, alongside editorial layout for BIZBUZZ and independent UI/web interface concepts. Skilled in PowerPoint, Canva, Adobe Photoshop, and Figma, with particular strength in typography, visual hierarchy, and photo compositing. Also a Computer Science and Engineering student who builds software and machine learning projects, bringing a technical, detail-oriented approach to design work.
